

Serial No.: 10/550,363
Group Art Unit No.: 1649

Remarks

In response to the Notice to Comply with Requirements for Patent Applicants Containing Nucleotide Sequence and/or Amino Acid Sequence Disclosures dated May 4, 2009, Applicants file herewith an amendment under 37 CFR §1.821(d).

Claims 1 and 3-19 are in the application. Applicants have amended Claims 6 - 14, 17, and 18 in hopes of bringing the claims into conformance with the specification. In addition, Applicants attached a copy of the Notice to Comply with this response as requested in the Office communication.

The Applicants reserve the right to prosecute, in one or more patent applications, the claims to non-elected inventions, the claims as originally filed, and any other claims supported by the specification. The Applicants thank the Examiner for the Office Action and believe this response to be a full and complete response to such Office Action. Accordingly, favorable reconsideration and allowance of the pending and new claims is earnestly solicited. If it would expedite prosecution of this application, the Examiner is invited to confer with the Applicants' undersigned attorney.

Respectfully submitted,

Jason C. Fedon
Attorney for Applicants
